THRONGS TO ATTEND JUNIOR-SENIOR

Lever Will Deliver Principal Commencement Address

Jungaleers To Play For Two Dances

Jungaleers To Play For
Brilliant Series Of
Colorful Hops

FAVORS GIVEN

With the opening flare of the Jungaleers' trumpeters tomorrow night, the 1937 edition of Clemson's annual Junior-Senior will be under way. This year's series will comprise the formal Junior-Senior dance on Friday night and an informal affair Saturday night sponsored by The Minaret, local honorary architectural society. The Junior-Senior banquet will be given at intermission Friday night in the college mess hall.

The Junior-Senior is given annually by the Juniors in honor of the graduating class, and tradition has established it as one of the most colorful dances of the year. The Junior class, under the direction of President (Continued on page eight)

BOB CHEVES ELECTED JUNIOR PLATOON HEAD

Dick Farmer Is Selected As
Assistant Leader After
Severe Competition

After several days of strenuous eliminations, Bob Cheves of Savannah was elected last Wednesday by the members of the crack Junior Platoon to head the outfit during the forthcoming year. Dick Farmer of Charleston was chosen as assistant leader.

Popular Choice

The election of Cheves was a popular one. He holds the military rank of Battalion Sergeant Major in the cadet corps, is a member of Tau Beta Pi, Associate Editor of the Tiger, and is a Scabbard and Blade Pledge. Farmer holds the military rank of Brigade Sergeant Major, is a member of Tau Beta Pi, junior TAPS staff, and is also a Scabbard and Blade Pledge.

B. N. Skardon of Walterboro was also in the final elimination after the field had been narrowed down to three men.

By Their Words

Gentlemen, if your digestion is like your mentality, you must be having a terrible time with your dinner.

—Cooke

Any of you can do this; it doesn't require brains.

—Blair

Do you want to know what's right in my class. . . why, it's what I think.

—Taylor

Jr.-Sr. Plans Are Announced

The Central Dance Association has announced that the dress at the coming dances will be formal Friday night and informal Saturday night. Cadets will be allowed to wear tuxedos or uniforms. No mess jackets or mixed formal apparel will be worn by cadets. The following prices have been announced:

	Cadets		Civilian
Friday night	\$1.50	Friday night	\$1.50
Saturday night	\$1.00	Saturday night	\$1.25
Block ticket	\$2.25	Block ticket	\$2.50

Minaret Taps Four Architectural Men

Hawkins, Muller, Parrot and
Guerard Pledged By
Architectural Club

At a meeting of the Minarets, local architectural society, held April 29, four prominent students of the cadet corps were tapped for membership into the society. These include: T. P. Hawkins, a freshman from Lincolnton, N. C.; J. C. Muller of Charleston, also a freshman; E. P. Guerard, a junior from Columbia, and D. L. Parrot, a sophomore from Central.

The pledges are at present passing through their informal initiation. In addition to the regular routine, the initiates are required to praise Allah in recognition of their superiors. They will wear a large wooden key which will display the Minaret figure during the informal period of initiation.

The Minarets are one of the most active clubs on the campus. They will sponsor the Saturday night dance after Junior-Senior, which promises to be one of the most gala occasions of the year. In addition to excellent art exhibits staged during the course of the year, members of the Minarets have always played an important part in the plan and preparation of the dance decorations throughout the year.

Reporter Unearths Stump-Pulling Epic Of Clemson's Darkest Ages

By A. B. Cee

Somehow or other, I, A. B. Cee, have a lust for knowledge. The layman would say that's a natural possession of the Clemson cadet, but my lust doesn't carry me, as it would others, to the shops of the Engineer or the laboratories and cells of the physicist and chemist. No, I hie myself eagerly to the annals of Old Clemson, annoy Ole timers, and dig diligently with the fear of God and Wilkie ever prodding me until some tale of woe, mirth, or splendor unearths itself.

A day or so ago, while on one of the usual ground, and head scratching expeditions, who should I chance upon but Professor W. W. Klugh. Here was an Ole timer if there ever was one! A student with Professors Hunter,

A. F. LEVER SELECTED AS PRINCIPAL TALKER FOR GRADUATION DAY

Commencement Exercises to
Be Held in Clemson
Chapel June 1

SMART TO TALK

The Commencement Board has announced that the Honorable A. F. Lever, of Columbia, will deliver the Commencement Address at the graduation exercises for 173 Clemson seniors on Tuesday, June first, in the College Chapel. Mr. Lever was the United States Representative from the Seventh South Carolina District from 1901 to 1921.

The Baccalaureate Sermon will be delivered by the Reverend Dr. W. A. Smart. Dr. Smart is a professor of Biblical Theology at Emory University, Atlanta, Ga.

Smart To Speak

To inaugurate Commencement Week, Dr. Smart will deliver the Baccalaureate Sermon at eleven o'clock Sunday morning, May thirtieth, in the College Chapel. At six-thirty in the evening a band concert and informal reception for the seniors and their guests, the alumni, and the faculty will be held on the YMCA green, to be followed at eight P. M. by the closing exercises (Continued on page eight)

LEMASTER TALKS ON SCIENTIFIC MARRIAGE

J. P. LaMaster, Professor of eugenics at Clemson, made a very enlightening talk on the subject of marriage before a large group in the college chapel on the evening of April, 28 at 7:00 P. M. The meeting was sponsored by the Presbyterian Student Association of which Holman Smith is president.

Professor LaMaster treated his subject from every angle, especially that of the preparation of marriage. The large attendance proved the cadet corps' interest in so vital a subject. They were rewarded with the presentation of many facts vital to anyone considering matrimony.

Ag Hall Dedication To Be Held Here Wednesday

Dedication Speaker

CHESTER C. DAVIS.

The Honorable Chester C. Davis, member of the Federal Reserve Board, Washington, D. C., who will make the principal address at the dedication exercises for the W. W. Long Agricultural Hall Wednesday, May 12. The dedication program is expected to attract throngs from throughout the Southeast.

Dunlap is Named Marine. Appointee

Popular Cadet Colonel Is Selected With Shuford As Alternate

According to a recent announcement from the Commandants Office, Cadet John F. Dunlap, brigade commander of the cadet corps, has received the United States Marine appointment allotted to Clemson College this year. M. I. Shuford was named as alternate.

Popular Colonel

Cadet Colonel Dunlap will receive his second lieutenant appointment as soon as he finishes the physical examination which is to be held in Charleston. Dunlap is from Savannah, majoring in Chemistry a member of Scabbard and Blade, Athanor, Blue Key, Senior Disciplinary Council, and Sigma Phi.

Honor Men

Seven men from this year's R. O. T. C. graduating class were named as Honor R. O. T. C. graduates. These men were chosen for their all round ability including their scholastic standing. The candidates for the Marine appointment are selected from this group of honor men.

They are: W. L. Cheatham, J. F. Dunlap, W. A. Lawton, G. M. Nichols, M. I. Shuford, H. W. Smith, C. G. White.

Building Will Be Ready For
Tour of Inspection At
2 P. M. Thursday

CORPS TO PARADE

All Clemson is eagerly looking forward to the dedication of the Long Agricultural Hall, which will take place on Wednesday, May 12. Much interest has been aroused throughout the state in the construction of the new building and a large crowd is expected to be present at the dedication address by the Honorable Chester C. Davis, member of the Federal Reserve Board, Washington, D. C.

The program will be opened at 10:30 a. m. by a brigade dress parade on Bowman Field. This will be one of the last parades involving the entire cadet corps of the 1936-37 session and the drill should reach a peak of enthusiasm and excellence on that day.

At 11:30 the scene will be the fieldhouse where Mr. Chester Davis will make the address that will formally open Clemson's new agricultural building. Immediately following the address, several honorary degrees will be conferred, and the awards for the best cadet guide, the best (Continued on page two)

AG ENGINEERS ELECT McKINNEY PRESIDENT

Debate To Feature Program
Of Industrial and Agricultural Problems

At a meeting of the local chapter of American Society of Agricultural Engineers last Thursday, election of officers for the next session was held.

The following cadets were elected: H. H. McKinney, president; W. M. McAdams, vice-president; and C. P. Guess, secretary and treasurer.

At a meeting to be held this evening a debate has been planned on the subject, Resolved: That the Industrial and Agricultural Problem in the U. S. Can be Solved Through the Program Advertised by the Foreign Chamber of Commerce Council. The affirmative will be taken by C. P. Guess and A. G. Speer. The negative will be taken by J. M. Dukes and E. D. Hayes.

DUPRE ELECTED HEAD OF LOCAL DAIRY CLUB

At the last meeting of the Dairy Club on Tuesday April 2, officers for next year were elected. W. M. DuPre, of Walhalla, was elected president and W. O. Payne, Greenville, was elected vice president. W. H. Stokes of Greer was elected secretary and treasurer. DuPre has received scholastic honors, and is a member of Alpha Zeta, a scholastic fraternity. Payne is a member of Alpha Chi Psi.

JACOBS SPEAKS HERE ON SCHOLARSHIP DAY HELD LAST TUESDAY

Several Awards to Clemson's
Highest Students Also
Features Program

SIXTH IN SERIES

At the Sixth Annual Scholarship Day Program, held in the College Chapel last Tuesday, Dr. W. P. Jacobs, business man of note, textile executive, and president of Presbyterian College, was the principal speaker. After being introduced by Dr. D. W. Daniels, Dr. Jacobs spoke on "The Demand for Scholarship by Business and the Professions."

After Dr. Jacobs speech, Dr. H. P. Cooper, Dean of the School of Agriculture, presented a prize to R. J. Ferree for having the highest average over the last two semesters of any sophomore taking agriculture. T. R. Bainbridge, a Savannah sophomore majoring in chemistry, was presented a gift from the Athanor, Clemson's oldest chemical society.

High Honor Recipients

J. W. Jones, was named the highest rating upperclassmen in the college, while L. V. Rogers won the award for the freshmen. Jones, an agronomy major from Greenville, is a member of both the Alpha Zeta and the Kappa Alpha Sigma, and is a captain in the cadet corps. Rogers is a straight Chemist, and is a day cadet from Atlanta. The following men were listed in high honors: Seniors, W. M. Epps, F. H. Lewis, J. R. Hendricks, W. A. Lawton, C. G. White, Jr., R. M. Watson, Jr., R. B. Wear, Juniors, C. A. Holland, Jr., R. T. Matthew, P. K. Switzer, W. A. Leitner, W. A. Mitchell, J. C. Shelley, J. C. Shell, Jr. Sophomores, E. B. Hammond, R. J. Ferree, T. R. Bainbridge, R. Hester, N. R. Page, J. K. Smith, M. M. Nichols, Jr., J. O. Sweeney, J. C. Cook. Freshmen, E. R. Roper, J. A. Shirley, A. D. Graham, A. W. Sanders, Jr.

Last year highest honors were conferred upon M. H. Langford, senior from Blythewood, S. C., and T. R. Bainbridge, freshman of Savannah, Ga. The guest speaker of the occasion was Dr. J. C. Kinard, president of Newberry College, who emphasized the value of college training.

AG DEDICATION TO BE HELD ON WEDNESDAY

(Continued from page one)

cadet corporal, and the best-drilled freshman, will be made.

Building Opened

At 2:00, the building will be opened for a tour of inspection by visitors. This will be a proud moment for Clemson cadets as they point to the 125 spacious rooms including offices, classrooms, and the most up-to-date agricultural laboratories. The building is modern and attractive in every respect, and it will be apparent to the guests of the college at these ceremonies that the edifice was designed for a maximum of convenient service to Clemson cadets and to state experimentalists.

The dedication of this building marks just one more step in the progress of Clemson in every field. It is a symbol of Clemson's progress in the field of scientific agriculture.

Harvard Authority Gives New Theory

Cambridge, Mass.—(ACP)—Eyes do not wear out; so why try to save your vision by cheating yourself of reading, sewing or the movies?

It is only disease, explains Dr. Theodore L. Terry, instructor in ophthalmology at the Harvard University medical school, that destroys vision.

If thou thinkest twice before thou thinkest once, thou wilt speak twice the better for it—

W. W. LONG AGRICULTURAL HALL

THE SOUTH CAROLINA SCHOOL OF AGRICULTURE

With the official dedication of Long Agricultural Hall, Clemson officials will witness the culmination of their ceaseless efforts to provide South Carolina's Agricultural School with the facilities to which her services to the state entitle her. It was the purpose of Thomas G. Clemson (right insert) to provide the young men of South Carolina with a college at which they might obtain sound training in the field of scientific farming. The completion of Long Hall carries Clemson one step nearer her ultimate goal... the desire to provide the youth of the state with the most adequate facilities possible. The Agricultural Building, named in honor of the late Dr. W. W. Long (left insert) whose service in connection with the extension department of Clemson stamped him as one of the state's outstanding men, is thoroughly modern in every respect. The building will be opened for a tour of inspection by visitors at 2:00 p.m. Wednesday, May 12.

Olson Appointed to Head Brigadier Next Year; Kienzle Business Manager

Hiers, Citron, Lafaye, Zeigler, Chovan, and Theodore Hold Positions

W. H. Bertram Editor of the Brigadier, has announced the following men as the staff of the magazine for the next school year: E. S. Olson, Editor; M. D. Hiers, Associate Editor; W. J. Kienzle, Bus. Mgr.; L. A. Citron, Associate Bus. Mgr.; W. L. Lafaye, Exchange Editor; Phil Chovan, Circulation Mgr.; Douglass Zeigler, National Adv. Mgr.; and James Theodore, Adv. Mgr.

Olson is a junior from White Plains, N. Y. He is majoring in Textile Chemistry. Hiers is a Sophomore from Waycross, Ga., holds the rank of corporal, and is an Electrical Engineering student.

Kienzle is a sophomore from Bethlehem, Pa., majoring in Mechanical Engineering. Citron an EE major, is from Columbia. He holds the rank of a corporal. Chovan is a sophomore from Bethlehem, Pa. He is majoring in Education and is a member of the football squad.

Zeigler a sophomore from Columbia is majoring in EE. Theodore is a sophomore from Greenville. He is also an EE major.

May Issue

This new staff will publish one issue of the magazine this year, the issue coming out around the twentieth of May. They will also publish either a midsummer or a June issue.

The new editors are hopeful of having the subscriptions paid with the Student activity fee next year. They are going to

SENIOR LIFE SAVING CLASSES HELD AT Y

Approximately Fifty Cadets
Receive Instructions
From Kirchner

With the close of the regular season for Clemson's swimmers, the YMCA has inaugurated a Senior Life Saving class in the Y pool with classes every afternoon and evening. There are three sections of the unusually large class, each under the guidance of a competent instructor.

The class numbers fifty, which is far above the advance expectations of Kirchner, who started the idea. They meet every afternoon from 4:30 to 5:30 and every evening from 7:00 to 8:00.

submit this question to the corps in the near future for a vote. If the students seem to favor this plan, it will be put before the Board which will decide whether or not to adopt the plan.

Under the new plan, the students would have fifty cents added to their activity fee at the first of the next school year. If the plan is not adopted, the editors stated that the magazine would sell at ten cents a copy.

The editors of the Brigadier have stated that they will endeavor in future issues to present to the corps a magazine containing more variety, and articles which will be of interest to all students.

IMPROMPTU DEBATE First Golf Tourney BY CALHOUN SOCIETY Won by Monckton

Malone and Wade Give
Talks at Interesting
Society Meeting

The Calhoun Literary Society held its regular weekly meeting Thursday night at eight-fifteen. Two speeches and an impromptu debate featured an unusually good program. H. T. Malone, retired president of the society spoke on "The Spanish Situation" which was followed by a talk delivered by W. B. Wade on "The C. I. O. and Henry Ford."

The entertaining impromptu debate on the query "Resolved: That Clemson Should be Co-educational" was upheld on the affirmative side by J. M. Culpepper and A. V. Williams. Opposition was furnished by T. E. Ramsey and S. Reid.

Bill Monckton, member of the varsity golf team, emerged victorious in the First Annual Intra-Mural golf tournament which was staged on the Boscobel golf course last week under the auspices of the local YMCA with Fred Kirchner, physical director, in charge.

Bill's 76, along with a nine stroke handicap, enabled him to eke out Vernon McCrary who had a 77 and a seven stroke handicap. Suitable wards will be represented to both the winner and the runner-up. Plans are underway toward making this tournament an annual affair. Keen interest was taken in the matches by the majority of Clemson's rapid golf fans, and it is expected that there will be little difficulty in having this event staged yearly.

SCABBARD AND BLADE TO ELECT AND INDUCT AT FORMAL MEETING

Bell, Stafford, Taylor, Fuller, Cheves, Farmer Are Initiates

A meeting of Scabbard and Blade, national honorary military fraternity, will be held Thursday May 6, at which time officers will be elected and the present initiates will be formally inducted into the club.

The new members include: F. L. Bell of Lancaster, A. W. Taylor of Charleston, E. H. Fuller of Columbia, T. I. Stafford of Charleston, R. J. Farmer also of Charleston, and W. R. Cheves of Savannah.

Outstanding Men

Bell, who is taking the Pre-Med course, is a member of Tiger Brotherhood and holds the rank of regimental sergeant major. Taylor, who holds the rank of first sergeant, is a member of Phi Psi, and is majoring in Textile Chemistry. Cheves is associate editor of the TIGER, a member of Block C, and battalion sergeant major. Farmer, a Mechanical and Electrical Engineering major, is a member of Tau Beta Pi, Minor Block C, and holds the rank of brigade sergeant major. Fuller is a member of Tiger Brotherhood, Phi Psi, Alpha Chi Psi, and is taking Textile Chemistry. Stafford is president of the junior class, member of Phi Psi, Tiger Brotherhood, and the Junior Taps Staff.

Scabbard and Blade is a national honorary military fraternity whose purpose are to promote military leadership among R. O. T. C. students and a spirit of national defense. During the scholastic year at Clemson, this chapter known as K company of the 7th regiment of Scabbard and Blade, has presented cups and medals to the men who have achieved military honors in each class.

EXTENSION OFFICIALS DISCUSS PROBLEMS

The Extension Service Representatives of Clemson College met with the officials of the Columbia Branch of farm credit administration and with representatives of other states in Columbia last week.

The other states of this district are North Carolina and Georgia. The group discussed plans whereby the extension agents would aid in working out individual farm programs to increase the income of farmers who have borrowed money from the Farm Credit Administration and have given mortgages on their farms in this connection. The result is intended to develop closer coordination between central agencies and the Farm Credit Administration on behalf of the borrowers.

Ag Frat Is Formed By Clemson Cadets

Tuesday night the secretary of the South Carolina State Grange, Mr. W. M. Agnew, spoke before a gathering of interested agricultural students concerning organizing a subordinate Grange at Clemson.

The Grange is America's oldest and largest farm organization, and the only rural fraternity in the world. Its program has operated for nearly 70 years consistently advancing and bettering rural life. The Grange functions in five fields: social, educational, legislative, cooperative, and fraternal. It has 800,000 members, including President Roosevelt. All presidents as far back as Ulysses S. Grant have been friendly toward and indorsed, the Grange.

First At Clemson

As far as could be ascertained, this is the first agricultural organization at Clemson College to which any student in agriculture may belong. The meeting are expected to feature prominent speakers and discussions and

J. C. Shelley Elected To Head Baptist Student Union Council For Next Term

OFFICIALS INSTALLED AT ATHANOR BANQUET

Ray, Waters, And Garick To Head Honor Chemistry Fraternity

At a banquet of the Athanor, honorary chemistry society, held last Thursday night at Starr, recently elected officers were formally installed. These included president: E. C. Ray, vice-president, A. R. Waters, and L. T. Garick, secretary and treasurer.

Ray, whose home is in Savannah, is president of Tiger Brotherhood, a member of the junior ring committee, and is majoring in chemistry. Waters, also from Savannah, holds the rank of first sergeant and is a major in Chemical Engineering. Garick, a straight Chemistry major, is from Hopkins.

Informal Banquet

The banquet, which was an informal affair, was one of two held by the club each year. Dr. Calhoun and Professor Lippincott were present as guests.

The Athanor endeavors to promote higher scholarship, social interests, and a spirit of friendship and service among those students whose major interests lie in the field of chemistry.

The gift of \$500,000 to Brown University from Jesse H. Metcalf, a member of the university's board of trustees, will be used to build and endow a laboratory "with unsurpassed facilities" for research in the fields of electro-chemistry and photo-chemistry.

talks by the members. An outstanding member will probably be selected to attend the meeting of the state Grange to be held during the summer.

New Officers Attend Spring Retreat At Camp Marion

MALPHUS RETIRES

In a recent statement by L. D. Malphus, retiring president of the Baptist Student Union, announced the B. S. U. Council for next year. J. C. Shelley of Marion, was elected president. Shelley has been active in religious activities at Clemson for the last three years and is connected with the YMCA at present. He is vice president of the Junior Class, honor sophomore to Alpha Zeta, and a sergeant.

Other officers elected for next year are: J. N. Talbert, first vice president; T. F. Stanfield, second vice president; F. D. Johnson, third vice president; D. G. Hughes, secretary; R. M. Reynolds, treasurer; D. R. Thayer, reporter; L. D. Malphus, personal service; F. E. Bobo, editor A. C. Payne, YMCA representative; D. Richardson, B. Y. P. U. representative; F. A. Thompson, deputation chairman; J. L. Gaskins, Baptist Student Magazine; J. E. Switzer, company representative's chairman; J. M. Lynes, Sunday School representative, and Mr. C. L. Morgan, faculty advisor.

Attend Meet

These new officers recently attended the State B. S. U. Spring Retreat, held at Camp Marion, April 9-11. All who attended this camp enjoyed a very inspirational week-end, hearing such noted speakers as Dr. Frank H. Leavell and Dr. John R. Sampey. The next camp or retreat to be held will be the Southern Student Assembly at Ridgecrest, N. C. June 9-17, of which a large number of this group will attend.

Clemson Saddened By Doctor's Death

Dr. W. W. Watkins Victim Of Heart Attack; Beloved Physician

Dr. W. W. Watkins, the oldest member of the medical profession at Clemson, died of a heart attack Saturday night at his home on the campus. Dr. Watkins was eighty-five years old and has practiced medicine in the vicinity of Clemson for over sixty years. He had the distinction of being the family physician of Thomas G. Clemson.

As the oldest member of the Methodist church, Dr. Watkins had attended church and Sunday School for fifty years. His death is a great loss to the people of the surrounding countryside where his services were rendered constantly without remuneration.

He climbs highest who helps another up—George Mathew Adams

1937 EDITION OF TAPS WILL BE DISTRIBUTED BY STAFF TOMORROW

Chemistry And Its Phases Is Theme Of Clemson Yearbook

Beginning tomorrow, Friday, May 7, the thirtieth edition of the TAPS representing the 1937 session, will be distributed to sixteen hundred cadets, who are impatiently waiting to see the results of a year's untiring and continuous labor on the part of the efficient TAPS staff, headed by Editor William Folk.

The theme of the Annual is chemistry in all its varied phases. Dedicated to Thomas G. Clemson, as the founder of Clemson College and a pioneer in agricultural and mechanical progress, the book is arranged in six main divisions, which in turn are divided into subdivisions representing and covering every phase of student activity at Clemson.

The embossed cover of the TAPS is a combination of blue and copper with a green background and entails a chemical design in keeping with the theme of the book. The many photographs are unusually clear and highly representative of student life on the campus and at camp. Four-color lithographed illustrations spaced throughout the book render an unusually tasteful effect.

The cadets who have made this year's Taps possible are as follows: William Folk, editor-in-chief; T. I. Martin, business manager; V. M. Shell, art editor; H. P. Bacot, photo editor; T. M. Rickards, literary editor; W. M. Gordon, advertising manager; Arnold Oglesby, associate business manager; A. W. LaGrone, sports editor; H. C. Travers, associate photo editor; E. D. Wells feature editor; F. D. Patterson, associate advertising manager; Mr. J. C. Littlejohn assisted the staff as faculty advisor.

The books were printed by Foote and Davis of Atlanta, Ga., Engravings were made by Photo Process Engraving Company of Atlanta and photographs were made through the facilities of Gaspar-Ware Studios, also of Atlanta.

That, collegians, contrary to the idea of Dan O'Brien, King of Hoboes, do make good bums, is what students at State Teachers College, Valley City, North Dakota, are trying to prove. They are urging the Student council to set aside an annual Hobo Day.

M. C. Rochester, graduate of the class of 1931, has resigned his joint position with the South Carolina Experiment Station and the Bureau of Agricultural Economics of the United States Department of Agriculture, and has accepted employment with the Extension Service. He entered into his new duties on March 1, 1937.

"Esprit De Corps"

After watching the Clemson College cadet corps rise to its fullest heights during the annual Spring Inspection which was held last week-end, we take this opportunity to comment on a few of the high-lights and to express what we think was a demonstration of "esprit de corps." Faced for the first time with an inspection which depended upon the whole-hearted cooperation of every man, with particularly emphasis placed upon the "men in ranks," the corps came through with what it takes to earn another excellent rating by answering every challenge thrust at them by the United State Army inspecting officer. Even those students who usually do not take any interest in the military phase of our college life mustered up the interest and ability to perform and fulfill the required standards of the Clemson College Military Department.

The sham battle which was staged between two picked war-strength companies was conducted in a very efficient and satisfactory manner by the cadet officers in charge which was all worthy of the name of our institution. Upon several occasions cadets were called from their places in rank to drill a group of men. Although these men were not as fully prepared as regular cadet officers for this test, they quickly became master of the situation, and, with the willing assistance of the men under them, gave a splendid exhibition of what Clemson men can really do when called upon.

Two weeks ago we ran an editorial stating that it was the duty of every cadet to live up to the expectations of our military system during the inspection, and now that the inspection is a thing of the past, we take this opportunity to say that we are justly proud of the cadet corps for the attitude taken. All in all, we think that every man did his part, and it was through the cooperation of every cadet performing his own individual task, in coordination with the military officials, that Clemson is again able to boast of another year of excellent military rating.

—W. R. C.

"The college, as a producer of adults, should shift emphasis from future values to the significance of present experiences. The terrible discount on present values is akin to the evils of hoarding. Life in college is as real as life anywhere." Pres. Henry W. Wriston of Brown University asks students to "Wake Up and Live" in the present.

"Students today know that the educational system is phoney. What they are getting is a mass of variegated and obsolescent information which is tossed at them in an apparently unrelated form and about which they do little if any thinking." The frank opinion of President Robert M. Hutchins of the University of Chicago.

YEARBOOK

TOMORROW ANOTHER edition of TAPS, Clemson's official yearbook will be distributed to an impatient student body. In an excited hour or so students will scan the pages of their annual and attempt to pass judgment on a work that has taken months of ceaseless labor.

Unlike newspaper work, the publication of an annual is not a repetitious weekly task, but a project which lasts for a definite period of time and then ends abruptly. The editor of a yearbook cannot make a mistake and make amends for it the next issue. His work is not discarded after one reading, but is kept as a permanent record of college memories and experiences. The book, whether considered a failure or success remains as a source of reference for interminable years.

In putting out this year's annual, Editor Folk and his Staff have succeeded in producing a publication worthy of any honors which may be bestowed upon it. Profiting by mistakes of past staffs, and following the good points of these staffs and heeding the tips given by other college yearbooks, the present staff has gotten together a yearbook which is interesting in its content, accurate in its depictions, and above all alive. Through free use of the candid camera by the competent cadet photography staff, the staff has succeeded in embodying the book with a delightful air of informality. Minor faults, unseen by the casual reader but landmarks to the contest judge have been successfully eliminated to a great extent.

Needless to say, the issue is not technically perfect, no annual can be; however, this annual unquestionably approaches a stage of perfection hitherto unattained by any of its twenty-nine predecessors. Its theme—chemistry and its phases—has been masterfully interwoven among the various books of the School, Sports, the Brigade, etc., to give a resultant picture which will long serve as a veritable store house of memories for the graduate.

In short, the Taps Staff of 1937 has worked as a Staff should. The men have limited their activities, sacrificed pleasures, and spent hours of work on tasks both pleasant and drudgery. They have worked as a unit for eight months. Now their work is through, and they can rightfully desist from their labors with the satisfaction of work well done.

Collegiate Press

By A. W. Sanders

It seems that South Carolina colleges are not the only ones concerned with the question of hitch hiking. At the Long Beach Junior College, the National Intercollegiate Hitch Hikers Association has just been formed. The purpose of the organization is to make the highways safe for hitch hikers. Each member is issued an official membership card which he, or she, is expected to hold up in plain sight of motorists while thumbing for a ride.

The L. S. U. "Reveille" has even gone so far as to publish an article on the etiquette of hitch hiking. It states that the most annoying breach of etiquette is for the hitch hikers to stand in the road so that cars must swerve around them to avoid picking them up.

Now that we have rules of etiquette for catching a ride, we wouldn't be surprised to see some enterprising paper come out with rules of etiquette for bumming a cigarette.

—COLLEGIATE PRESS—

The University of Mississippi recently celebrated the twenty-sixth anniversary of "The Mississippian," official student publication. The anniversary issue contained congratulatory messages from President Roosevelt, Governor White, and many other dignitaries. The Ole Miss paper contained 24 pages, including a number of candid camera shots and a rotogravure section. "The Mississippian" boasts of being the "south's best collegiate weekly newspaper" and also of being entirely out from under the jurisdiction of the university administration.

—COLLEGIATE PRESS—

"Breathes there a man" who has not at one time or another wished for a bell, or a hook or something to stop a chapel speaker? Last week at Bluffton College somebody had a good idea and it worked. A distinguished and true product of the "Windy City" was addressing the student body. At the end of the first hour, when the speaker appeared to be just warming up, a bell began to ring. After a fierce struggle, the bell proved to be the better man, and so the assembly adjourned. When they finally found the bell, it proved to be an alarm clock concealed behind the chapel organ. Since no one would confess, the administration is having the entire student body fingerprinted to find the culprit.

Talk Of The Town

INSPECTION

Though during our freshman year, we were instilled with a heartfelt dread for anything pertaining to Big Inspection, we have found that as time has passed we have become less and less worried over the fear which we thought we would never live down until finally we're forced to admit that we actually enjoyed the last encounter with the Army. No longer did the man with the big brass buttons frighten us, and we spent a blissful two days strolling around the campus displaying our new haircut, pressed pants, and shined shoes we borrowed. In fact, we go so far as to say that we found moments of rare humor in the otherwise grim situation, despite the fact that rain baffled the weather prophets, forced inspecting officers to reverse the original schedule of inspection, thereby forcing us to remake our whole front page. Needless to say, we even got quite a kick out of running around the golf course with a machine gun under our arms and laying down countless final protective lines only to be told by observant officers that everything was all right except for the fact that we were mowing down our own men.

—TALK OF THE TOWN—

AIR RAID

Of all the occurrences of the remarkable week-end however, the incident which amused us most was the well-planned air raid on Bowman field. Straggling along behind our column, we observed three cars riding slowly along the highway, the occupants curiously gawking at the hundred or so armed cadets marching on their way to battle and glory. Suddenly the bugler sounded the air raid warning and we sprawled on the ground with the rest of the combatants who let fly an outburst of rifle fire. While closely hugging mother earth, we witnessed one of the most remarkable sights of our young career. The lady driving the leading car jammed on her brakes at the first outburst of rifle fire; the car immediately behind her swerved to the left and climbed Hotel Hill in high; the last car, a Willys which was traveling at a faster clip than the rest practically did an about face and scooted for the bamboos near the Y. A bunch of high school girls aroused from their gabfest by the excitement sent books pell mell into the air. In a minute or two, the furor was over, the firing had ceased and the column of cadets was calmly engaged in marching toward their impending doom on Golf Course Battleground. Girls were frantically picking up scattered books of learning and two cars were cautiously wending their way back to the highway. Only the lady who was originally startled remained perturbed. We don't think that she's quite figured out yet that it was all in fun, and she probably thinks that those impending foreign wars the newspapers have been telling us about have already begun. Anyway, we're willing to wager that after this experience, she's already become enrolled in the Peaceways and Emergency Peace campaigns and has become an ardent supporter of any movement for the abolition of war.

—TALK OF THE TOWN—

GONE WITH THE WIND

The other day in history class there occurred a little repartee which seemed to us to possess a faint spark of humor; so we are passing it on to you, not because it's good, but because we sincerely feel that anything that gets a laugh in history class deserves some recognition. While discussing the pros and cons of Imperialism, we somehow got sidetracked into a review of *Gone With The Wind*. Some observant lad who reads the newspapers brought to light the fact that Miss Mitchell was being sued for plagiarism by an authoress of little or no consequence. A heated discussion as to whether Miss Mitchell was a

—that he officially became a member of the Clemson-Winthrop Club over the week-end when he crashed the sister school's prom party last Saturday night in an effort to catch some of the regulars off guard.

—OSCAR SAYS—

—that in spite of all his snooping around, nothing out of the ordinary happened unless it was little Richie Farmer whispering into lil' Nell's ear the same sweet nothings of the week before.

—TALK OF THE TOWN—

—that the laugh of the week was on Frederick Adair Dunlap, Junior (the gentleman lover from Rock Hill) when he received a C. O. D. telegram from his first sarge stating that there would be no more reveilles for the rest of the year and that it was safe for him to come on back without fear of being shipped.

—OSCAR SAYS—

—that Bob Cheves (Wilkie's right hand man) established some sort of a record for the Junior-Senior hop when his third invitation was accepted, and Oscar is wondering whether it is that Westminister number that he has been talking about.

—OSCAR SAYS—

—that O. Foster Morgan (Wilkie's left hand man) was seen at the Rock Hill coming-out celebration, and Oscar is wondering whether the CDA also exchanges complimentary bids with Winthrop.

—OSCAR SAYS—

—that Clemson's three old men (Stokes, Wells, and Collings who have yet to shave for the first time) looked mighty cute last Sunday night flipping coins to see which one should have the honor of escorting yard-engine No. 13 to the church organ recital.

—OSCAR SAYS—

—that he was pleased to note the Sophomore color-pea-drivers at retreat last Monday, and he feels sure that the boys enjoyed their first taste of freedom after a year of confinement.

—OSCAR SAYS—

—that Oscar has received several complaints from the boys who say that their names have been left out, so he is planning on returning the "Oscar Box" in front of the G. R. to give the ole' ladies a chance.

—OSCAR SAYS—

(Continued on page five)

plagiarist or not was immediately begun. With an air of finality, the section's bright boy expressed the idea that he believed that Miss Mitchell's accuser was wrong because of the fact that she was making her accusations at such a late date. This observation was quickly countermanded by the class half-wit who glibly insisted that the young lady wasn't to blame for her delay because, after all, it must have taken her at least six months to read the book to find out if it were really her stuff that Miss Mitchell was stealing. Which all reminds us that the next time we resort to plagiarism it will be in a ten-thousand page opus—no less.

—TALK OF THE TOWN—

MORE WIND

Incidentally, while we're on the subject of this saga of the Old South, suh, we would like to bring to light one of the more choice remarks of the current year. It occurred during Taps week-end and involved R. Simms Campbell, the man who wears patent leather shoes to inspection. Whipping over to Coed Quarters in his sixteen cylinder Packard, Campbell rushed through the milling mob of patient lads waiting for their sweet young things and sent word for his date to hasten, (being only an hour late already). Not to be outdone by the little one's insistent demands, his date casually walked to the railing, tossed down a copy of *Gone With The Wind*, and murmured sweetly, "Here, Bob, dear, I'll be down by the time you finish this."

Oscar Says

(Continued from page four)

--that the latest Converse scramble is involved around Beebe (pronounced BB) with Berry, Ashmore, and Durban as the leading contenders, but Oscar still can't figure out what happened to Waters who brought her over the first time.

—OSCAR SAYS—

--that Oscar's latest nomination for the Getta-Snatch Klub is Corporal Jerry McCully who has offered Captain Jeff everything except a late-date with his girl in an effort to get that recommendation.

—OSCAR SAYS—

--that since marble season is rapidly drawing to a close, Shurd's boys have resorted to miniature golf as a form of amusement. Oscar hasn't yet figured out how the boys overlooked a May Day celebration around the flag-pole.

—OSCAR SAYS—

--that he has not heard from his friend the Key-Holer in quite a while, and Oscar wonders whether the new staff is waiting on that shipment of disinfectant before they take up where the

AGRONOMY CLUB IS CHARTER RECIPIENT

The Clemson College Agronomy Club recently received its charter from National Headquarters officially designating the name as the Kappa Alpha Sigma Chapter. This charter will be framed and hung in the Agronomy classroom of the new Agricultural Building. The Clemson chapter is one of the many college units which serve as a student auxiliary to the American Society of Agronomy.

old staff left off (behind the big ole eight ball).

—OSCAR SAYS—

--that the Seneca Hilly-Billy trio can't be held responsible for the reverberating echoes that have been resounding over the campus every night after supper, but that may be credited to Colonel Dunlap and Lawton (and their rah rah boys) who have been combining vocal entertainment along with their road work.

Even though they don't consider it "quite ladylike" to smoke pipes in public, five Ohio State University coeds claim to enjoy corn-cob and briar pipes in their own sanctums.

Dr. W. C. Mays Is Speaker At Meeting Of Newly Organized Pre-Medical Club

Dr. Hines, Editor of State Medical Journal, to Speak Next Week

At the last weekly meeting of the Pre-Medical Club, Dr. W. C. Mays, father of the club president, L. E. Mays, made a short talk and presented a paper on the mal-nutrition of the school child. Following Dr. Mays' talk there was a round-table discussion of current topics by the group. Dr. Milford, college surgeon, was present in his capacity as honor member of the society.

It is the hope of the Club that it can secure as guest speakers various doctors of the state in order that its members may gain a clearer insight into the profession which they have chosen for their life's work.

The club will have as its guest tonight Dr. E. W. Hines, editor of the state medical publication.

Blushing is the colour of virtue.—Henry.

EDUCATION PROFS GO TO LEAGUE CONCLAVE

Dean W. H. Washington and Professor H. S. Tate of the Education Department represented Clemson at the State High School League meeting in Columbia last week.

Mr. Washington made the statement that no changes were made by the League concerning the rules governing the annual industrial education contest held at Clemson two weeks before. However, several changes of consequence were made in athletic game rules.

Lip-reading classes for students with impaired hearing, sponsored by the NYA for the rehabilitation of students, were started a short time ago at the Oklahoma Agricultural and Mechanical College.

Nothing is ever gained by winning an argument and losing a customer.—C. F. Norton

Alumni News

C. R. Blakeney, Clemson graduate of '29, now holds the responsible position of overseer of carding with Springs Mills in Kershaw, S. C.

S. T. Burley, class of '36, is now connected with the spinning department of the U. S. Department of Agriculture, College Station, Texas.

J. L. Caldwell, textile graduate of '31, is Assistant to Superintendent with Drayton Mills, Spartanburg, S. C.

G. E. Faulkenberry, '29, is connected with Cannon Mills of Concord, N. C.

--A. G. Fishes, class of '33, is now with the Rock Hill Print and Finishing Co., Rock Hill, S. C.

Mr. J. H. Woodward, Secretary of the Alumni association recently made the announcement that the classes of 1902, '07, '12, '17, '22, '27, and '32 would hold their reunions at Commencement this year.

For Digestion's Sake... SMOKE CAMELS

THE delightful effect of smoking Camels with your meals and afterwards has been proved again and again in the great laboratory of human experience. Explorers, champion athletes, people in hazardous outdoor work, as well as millions of men and women in homes and offices, find that Camels get digestion off to a good start and make the perfect ending to a meal. When you enjoy Camels, you are rewarded with an increased flow of digestive fluids—alkaline digestive fluids—so important to good digestion. And you can enjoy Camels as often as you like! Camels don't get on your nerves.

Copyright, 1937, R. J. Reynolds Tobacco Company, Winston-Salem, North Carolina

TOUGH COURSES come easier with Camels! Smoking Camels eases tension—aids digestion too. For when you smoke Camels at mealtime and afterward, you encourage a sense of well-being, contentment. Camels give you a refreshing "lift" in energy when you need it most. Camels never get on your nerves or tire your taste!

DEEP IN THE JUNGLE FASTNESS of Central America amid the ruins of a lost city... Lawrence T. K. Griswold (right) has headed expeditions to Tibet, Komodo, the Amazon, and the lost cities of the ancient Mayas. He lists Camels as one of the necessities on the trail. "At best, eating in the jungle is no picnic," says Griswold. "I've found that smoking Camels is an aid to my digestion. Camels ease tension and give me a 'lift' in energy when I need it most."

THIS CO-ED SAYS: "Camels set me right. Mental work often has an effect on digestion too," adds Miss Josephine O'Neill. "During meals Camels are a big aid to digestion. After meals they make food seem twice as good." Camels are mild!

A FLIGHT DISPATCHER. "I often eat my meals on the job," says H. G. Andrews, TWA flight dispatcher. "Camels help my digestion behave itself. Being mild, Camels don't get on my nerves."

COSTLIER TOBACCOS!

Camels are made from finer, **MORE EXPENSIVE TOBACCOS**—Turkish and Domestic—than any other popular brand.

HEAR "JACK OAKIE'S COLLEGE"

PEACE STRIKES OF NO AVAIL SAYS EDUCATOR

"Might As Well Strike For Better Weather" Says Prexy

PEACE IS THEME

New York, N. Y.—(ACP)—Students might just as well strike for better weather as engage in peace strikes.

That is what Dr. Frank Aydelotte, president of Swathmore College, told members of the peace-in-education conference of the Public Education Association.

World peace must be a by-product of justice and cannot come from negative protests against diplomats and munition makers, he asserts.

"We, as a people, are willing to demonstrate for peace; we are ready to march in processions to curse diplomats and bankers and other imaginary devils and to do many things equally irrelevant," said Dr. Aydelotte.

"An excellent example is the peace strike engaged in by college students all over the country. I would not for the world criticize the good faith and idealism of the young people who engage in it, but so far as any real results are concerned they might as well strike for better weather.

Task of Justice

"The task of securing peace is the task of providing for justice among the nations. It requires international understanding and recognition on the part of one nation of the rights of others.

"Aim at peace alone and you will never achieve it; aim at the rule of law and justice between all nations, direct your efforts to that end, plan your institutions for that purpose, pay the necessary price of submission to law and to reason, and on top of many other blessings you will have peace."

Furthering the discussion of education for peace, Dr. John L. Tildsley, Assistant Superintendent of New York City schools, explained that certain predispositions must be overcome and positive attitudes created in their place.

Not Strict

"I am not for peace at any price as between nations or as between society and the humans who are hostile to it. I believe there have been times and that there will be times again when the existence of a nation can be maintained only by armed resistance, but I also believe that such times must become ever a rarer if the race is to survive.

"I would not make a pacifist, in the extreme sense, of the youth in the school. I would not have him subscribe to the Oxford oath or even have him believe with some of my Quaker friends, whom I so greatly respect, that there can be no possible circumstances which will justify armed resistance" said Dr. Tildsley.

Growth rings on baby teeth have been discovered by Dr. Isaac Schour, of the college of dentistry at the University of Illinois. These rings, he states, show a relationship to the child's age.

To learn about the health habits of the black widow spider, John Pierson, zoology student at Oregon State College, watches the ink colored captives for an hour or so daily.

Do your job so well that every body around knows the kind and quality of work you do—Chas. R. Hook.

Dr. H. C. Brearley, Popular Psychology Prof, Awarded Rosenwald Fellowship

Clemson Faculty Member To Study For Year At London University

According to an announcement by Edwin R. Embree of the Julius Rosenwald Scholarship Fund, Dr. H. C. Brearley, professor of psychology at Clemson, has been awarded a year's fellowship for advance study in sociology at London School of Economics and Political Science.

Mr. Embree also stated that awards averaging approximately \$1500 each were made to 19 white southerners. Approximately 300 applications for the scholarships were received.

Dr. Brearley, who has gained considerable importance in the field of sociology, has been extended a year's leave of absence from Clemson during which time he will avail himself of his studies. He will take his leave in September and will return to resume his present activities in either June or July.

The Julius Rosenwald Scholarship Fund is a fund established by Julius Rosenwald, formerly president of Sears, Roebuck and Company, for the purpose of promoting social welfare, especially in the South.

Library Course To Be Offered Here

A course for librarians which has been approved by the South Carolina Board of Education is to be installed as a regular feature in the Clemson Summer School this season. These courses are to be taught by Miss Cornelia Graham, Clemson College librarian who will have as her assistant in this work Mr. John Goodman.

For high school students to receive credit in library work, their instructors must have six weeks of Library Instruction. Applicants to this course are required to have had two years of college work.

The three principal branches of the course are: Administration of School Libraries, Book Selection, and Reference and Bibliography.

Miss Graham and Mr. Goodman, instructors of the course this summer are both experienced librarians. Miss Graham received her B. S. degree at Georgia State College for Women and is a graduate of Columbia University School of Library Science. Mr. Goodman is a Clemson graduate and attended the Emory Library School.

Dr. Sikes Talks To High School Grads

About 600 high school seniors representing schools from every section of the state visited the Clemson campus as guests of the cadet corps on Tuesday, May 4.

The seniors, attracted to Clemson by its growing recognition as a center of learning and training for future industrial technique, showed considerable interest in the various fields open to them at Clemson.

A talk by Dr. E. W. Sikes, president of Clemson, set forth the numerous opportunities which are constantly being opened to college graduates. Military maneuvers by the crack junior platoon were featured as entertainment of the guests.

BENGAL NETMEN WIN FROM PRESBYTERIAN

Sweep Series Of Matches Without Losing A Set To Opponents

The Clemson tennis team experienced little difficulty in defeating the P. C. netmen 9 to 0 in Clinton Monday. The Tiger racket wielders did not lose a set in the 8 matches played.

Summary:

Beatty (P. C.) defaulted to LaGrone

Mitchell (C) defeated Parham 6-2, 6-4

Campbell (C) downed Woodward 6-2 7-5

Hudgins (C) beat Gray 6-4, 6-2

Arnold (C) defeated Stowell 6-1, 6-4

Durban (C) beat Johnston 6-4, 7-5

LaGrone and Campbell (C) defeated Woodward and Parham 7-5, 6-3

Mitchell and Durban (C) downed Adams and Jacobs 6-2, 6-2

Arnold and Hudgins (C) defeated Stowell and Power 6-1, 7-5.

According to the findings of an investigation made by the South Carolina Experiment Station, tenant farmers in South Carolina move on the average of every three or four years; whereas, owner farmers move on an average of every eleven to twelve years.

Pain is no evil unless it conquer us.—Kingsley.

Peace is always beautiful.—Whitman.

DOUBLE DEGREE WILL BE HARVARD FEATURE

One Degree For Excellent Scholars; Another for Average Students

SYSTEM IS PRAISED

Cambridge, Mass.—(ACP)—A change in tutorial instruction for Harvard College undergraduates, which may be a forerunner to the establishment of a double-degree system, was announced by Dean A. C. Hanford.

The change, to become effective next fall, is being made "in recognition of the general opinion that all students are not equally capable or desirous of profiting by tutorial instruction as compared with course instruction."

Under a plan adopted by the faculty council in departments "where the situation warrants it," the tutorial system will be modified so that juniors and seniors may either pursue the present plan or receive a less intensive form of instruction.

First to Adopt

Harvard was the first institution of higher learning in the country to adopt the tutorial system. That the experiment, in its present form, is not considered satisfactory is indicated by the announcement of alteration.

In the opinion of some Harvard officials, the modification may be the forerunner of a move by Pres. James B. Conant to establish a double-degree system, with one degree for excellent scholars and another for average students.

Several times Dr. Conant has indicated that he favors such a system. The history department, explained Dean Hanford, already has two distinct plans of study and instruction with "appropriate differences" in the method of examination.

Bengal Tracksters Win Fourth State Crown

The Tigers made it four in a row when they won the state track meet in Clinton last Saturday night. We had a pretty close shave, however, as Carolina racked up 45 points, just one short of our total. This meet was one of the most exciting we had ever seen. The finish to almost every event had the spectators standing in their seats, and shouting themselves hoarse for their favorites.

One ruling of the judges proved to be very unpopular with a large portion of the crowd. This occurred when Clemson was disqualified in the mile relay. The loss of this event cost Bob Carter the individual high point cup and many people in the crowd booed the decision, but the ruling was that one of the Clemson runners had cut in on another runner before he was far enough in front of him. This was a very unfortunate incident, but the judges made the ruling as they saw it happen, and the only thing to do in a case like this is to agree with the judges who are always in a much better position to see what goes on than we are.

LAST MEET

This will be the last state meet for several of Clemson's track stars. Captain Bob Carter, who scored 15 points in this year's meet, will be a great loss to the team. Carter is recognized as one of the best hurdlers and high jumpers in the south, and he will be greatly missed from next year's squad. Other men who have turned in their uniforms for the last time are Johnny Green, who holds the state record in the mile, Frank Herlong, stellar quarter miler, King Kong Bryant, weight man, T. S. McConnell, javelin thrower, and Bill Bryce, high jumper.

BASKETBALL

The basketball team has been working out in the field house each night for the past few days. All indications point to The Tigers having a fine team next year, despite the rather disappointing season they had last

Tennis Team Loses To Furman Netters

Hudgins And Mitchell Take Matches In Tight Contest

The Furman tennis team downed the Clemson netmen 5 to 2 in a match played on the Furman courts last Friday. Furman won both doubles and three singles matches, while Clemson annexed two singles matches.

Summary:
Southern (F) defeated Campbell (C) 6-0, 3-6, 6-4
Aiken (F) beat LaGrone (C) 8-6, 6-4
Mitchell (C) downed Watson (F) 6-1, 6-0
Gray (F) won over Durban (C) 6-1, 6-2
Hudgins (C) defeated Oswald (F) 7-5, 6-4
Southern and Aiken (F) defeated Mitchell and Durban (C) 6-1, 6-3.

Patronize Tiger Advertisers!

winter. Losing only two men by graduation, Bill Bryce and Bob Carter, and with such veterans as Cheves, Kitchens, Magee, Miller, Jack Bryce, Jackson, and Sophomore McFaddin, Flathmann, Thomas, Brady, Bagnal, and Bryant, the Tigers should have a stellar band of hardwood stars next season.

TIGER TRACK TEAM ENDS WITH GEORGIA

Large Crowd Expected When Spec Towns and Companions Invades Clemson

FINAL MEET

Next Saturday, on Riggs Field, the Clemson track team will terminate a highly successful season by opposing the University of Georgia tracksters. The Tigers, who recently won the state track meet will be out to win, and this meet should be one of the most interesting sports events of the season.

An outstanding highlight of the meet will be the performance of Forrest "Spec" Townes, sensational hurdler who represented the U. S. A. in the 1936 Olympics, setting a new world's record in the 120 yard high hurdles. The appearance of this Olympic star at Clemson should draw a large crowd to Riggs Field Saturday.

Swan Song

This will be the swan song for several of Clemson's track stars. Captain Bob Carter, high point man for the Tigers, will don his uniform for the last time, as will Bill Bryce, high jumper, T. S. McConnell, javelin thrower, King Kong Bryant, weight man, Johnny Green, stellar miler, and Frank Herlong, quarter miler.

Carter Leads Cohorts To Victory At Clinton

TIGER NETMEN DROP MATCH TO CAROLINA

Mitchell And LaGrone Win Decisive Victories Over Opponents

The University of South Carolina tennis team won the state championship by defeating the Clemson team 5 to 2 in Columbia last Saturday.

In spite of this defeat, the Bengal racquetsters have made an impressive record this season, and are hoping to find redemption this week-end in the state tennis tournament which is to be held at Clinton.

Summary:
Daniels (S. C.) defeated Campbell, 6-1, 6-1
Mitchell (C) beat Lipscomb, 6-1, 6-2
LaGrone (C) downed Williams, 6-1, 6-2
Carson (S. C.) whipped Hudgens, 5-7, 6-2, 6-2
Bryan (S. C.) defeated Arnold, 6-3, 6-2
Williams and Daniel (S. C.) downed LaGrone and Campbell, 6-4, 1-6, 6-3
Bradham and Prince (S. C.) defeated Mitchell and Arnold, 6-3, 4-6, 6-3.

Clemson Ekes Out One-Point Margin Over Carolina In Clinton Meet

LITTLE STARS

In a hotly contested struggle the Clemson track team lived up to expectations by winning the state track meet in Clinton last Saturday night by piling up a total of 46 points. They were pushed hard by Carolina, who scored 45 points. Other scores were Citadel 21, P. C. 19, Furman 18, Wofford 12, Erskine 2, Newberry 0.

Little Stars

Dick Little of Carolina was individual high scorer of the meet with a total of 15 3/4 points. Bob Carter of Clemson garnered 15 points, and was a member of the mile relay team that finished first in the event but which was disqualified because of a technicality.

Only one state record was set. Bob King of Furman hurled the discus 142 feet 6 inches, thereby bettering his own record of 140 feet 11 1/4 inches, set last year.

The man who has no quitting point, so long as there is life in him is the man to tie to—The Sphinx

BENGAL TRACK CAPTAIN

Captain Bob Carter, Clemson's stellar track ace, who led his teammates to victory in the State Meet at Clinton last weekend. Performing consistently all season in his specialties, the high jump, and the high and low hurdles, Carter has gained recognition as one of the Southern Conference's foremost track stars. After reaching peak form in the State Meet where he garnered fifteen points, Captain Bob is expected to bring his brilliant career to a fitting close in the meet with Georgia Saturday where he will be rivaled by Spec Townes, Olympic star.

JUNIORS GIVE DANCE IN HONOR OF MEN OF 37 GRADUATING CLASS

(Continued from page one) dent T. I. Stafford, has worked hard to make the dance this year live up to the precedent established by Junior-Seniors of the past few years, and the affair to-morrow night promises to be a gala occasion.

The banquet will be held at intermission, beginning at eleven thirty, and will assume the form of a buffet supper. The mess hall will be attractively festooned with decorations suitable for the occasion and the tables are to be adorned with flowers and other ornamental effects. Each guest is to be given favors which will be beautiful and will serve as decorative mementos of the festive occasion. Other novelties will be given out to add to the enjoyment of all those present.

Only Juniors and Seniors will be permitted to have dates for the Friday night dance, and immediately after intermission will come the Junior-Senior no-break. This no-break will be a balloon dance, and hundreds of gaily-colored balloons will be released to add to the beautiful decorations.

The Saturday night dance will be the annual Minaret dance, sponsored every year by the architects. The Minarets play a big part in the decorating of the Field House for all the dances. The decorations for this series will be in the nature of a surprise, and will carry out the theme of the Junior-Senior. The novel way in which they are arranged will delight the large crowd in attendance at this traditional dance.

The Jungaleers, who will play for the series, played last weekend at the Winthrop Junior-Senior, and they have recently filled engagements at Converse, Anderson, and many other places in this and neighboring states. The orchestra has made several European tours, and has come to be known as one of the better college dance bands.

NEWSHAWK TELLS OF STUMP PULLING DAYS

(Continued from page one)

known as "The Encouragement of the Dignity of Labor" was installed, and the entire cadet corps began digging stumps.

Four hours a week of chopping, pulling, and tugging showed little results. More stumps seemed to spring up from the very sweat of the young Tiger's brows. Never before had Clemson Cadets seen so many stumps. Some fellows began counting stumps instead of sheep to cure their insomnia. A certain group of high brows called this course "Practicum" just as though it were a pet, but for want of typographical letterings, we can not print the name given it by the masses of cadets.

Someone once said, "There is a ray of sunshine in every beclouded sky." This "stump rooting" affair was an exception, for no matter how tiresome and unwelcome were those four hours a week, the labors of each cadet were partly rewarded by an eight cents an hour compensation. Then, too, some young men became attached to their stumps. Names like "Deep Willie", "Tormentor", and "Heil Holder" were not uncommon around the campus. Some literally inclined Clemsonites even went so far as to compose prose and poetry for their favorites.

Wandering from those bygone days to the present, we humor ourselves with the thought that a course like The Encouragement of the Dignity of Labor (stump digging) was one characteristic of the past with all of its ignorance and folly. But have we not junior platoons, sophomore platoons, and even freshman are given a chance to strut in some mass activity. Yea, a search in the dim past reveals much of interest, but you may be assured that I, A. B. Cee, will never be one to advocate "the good ole days".

Six Thousand Clemson Catalogues Are Sent to List of Prospective Students

CLEMSON CHEMISTRY PROFESSORS ACTIVE

Dr. H. L. Hunter, Professor Franklin Sherman, and K. R. Aull of Clemson, attended the fourteenth Annual Meeting of the South Carolina Academy of Science in joint session with the South Carolina Section of the American Chemical Society, and the South Carolina Section of the Southern Society for Philosophy and Psychology, at Leconte College, University of South Carolina, Columbia, on May first.

Professor Franklin Sherman, of Clemson, retiring president of the organization, made an address on the Ubiquitous Insect. The new president, A. C. Carson of the University of South Carolina responded to the address of welcome delivered by Dr. J. R. McKissick, president of the University of South Carolina.

Other colleges represented by speakers at the session were Furman University, The Citadel, Medical College of South Carolina, Coker College, and Limestone College. There were also speakers from the United States Regional Vegetable Breeding Laboratory and the Soil Conservation Service.

Three Hundred Revised Copies Sent to Colleges On Mailing List

Last week the Registrar's office received the annual shipment of six thousand Clemson catalogues. In answer to requests received during the session from prospective students, three thousand of these records have been mailed.

Three hundred copies of the catalogue have been sent to various colleges and universities which are on Clemson's catalogue exchange list. Other copies will be obtainable by special requests from prospective students and from others interested in the college. A copy is to be sent to every room in the barracks for the use of students.

The new catalogue has been meticulously checked for grammatical and typographical errors as well as revised in content.

The less people think of their greatness, the more we think of it—Bacon.

Militaristic Freshmen Baffle Inspectors

One striking example of the spirit which predominated during the recent Spring Inspection occurred while two war strength companies of the first regiment solved their tactical problems of attack and defense of posts. The battle raged fiercely, the defense held its hill and the attacking force advanced systematically. Lieutenant Colonel Brownell, Inspecting Officer for 1937, impressed by the veteran-like manner of the combatants turned to Colonel Weeks and asked, "These companies are composed of especially selected seniors, are they not?" To show that this was not the case, Colonel Weeks, stopped the first squad to pass and asked the commander and each man his rank. "Sophomore, sir" was the commanders reply. "Freshman private, sir, came the successive answers of seven freshmen who were unwittingly adding prestige to Clemson's already progressive record.

When a student writes a textbook it's news. Bert Grove, a junior in the school of education at Northwestern University, will have published next July a geology text, which deals mainly with scientists in the field of geology and physical anthropology.

Plans Announced For Graduation

(Continued from page one)

of the Young Men's Christian Association.

Literary Exercises

On Monday morning at ten o'clock during the class reunions the buildings all over the campus will be thrown open for public inspection. Literary Society Exercises will be held in the College at eleven A. M., and after dinner there will be a meeting of the Alumni Association at two-thirty in the auditorium of the Y. At four in the afternoon military exercises will be held on Bowman Field. The day will be closed with an informal reception at the Calhoun Mansion at eight.

Final Exercises

The final graduating exercises will be held on Tuesday, June 1, after which the seniors will head for jobs, the juniors for camp, and the other underclassmen for home.

The Finals dances, featuring the music of Jack Wardlaw and Mal Hallet will also grace Commencement Week, and are expected to draw a large portion of the corps back to the campus for the week-end.
